Technical Specifications:

Display

Operating frequency	433.92 \pm 0.5 MHz
Operating voltage	DC 2.0~3.6V
Static current	<1.5 μ A
Operating temperature	-20°C~+60°C / -4°F ~+140°F
Storage temperature	-30°C~+80°C / -22°F ~+176°F
Lifetime	1 years @ 4 hours per day

Sensor pad

Operating frequency	433.92 \pm 0.5 MHz
Operating voltage	DC 2.0~3.6V
Operating current	<25 μ A
Operating temperature	-20°C~+60°C / -4°F ~+140°F
Storage temperature	-30°C~+80°C / -22°F ~+176°F
Lifetime	3 years @ 4 hours per day
Button press force	>20N
